## BLOOD THIRSTY WERE THESE MEN

### Commit Two Murders Without Any Provocation.

Father and Son and Latter's Sweet-  
heart Implicated in the **Orig-**  
of Crime.

### SON HIDES ON THE MOUNTAIN.

Knoxville, Tenn., July 17.—After a night of crime and murder unprecedented in East Tennessee, Dr. Buck McPherson, a well-known physician and Miss Elizabeth Winstead, sweetheart of his son, John McPherson, aged 24, are prisoners in the Knox county jail. John McPherson, the son, is a fugitive from justice and a possessor of officers and citizens of Sevier county, where many of his relatives live. He is armed with pistols and will not be taken alive.

Grant Smith, a merchant, is dead and Deputy Sheriff William Walker is mortally wounded, while Dr. Joseph Waddell is badly injured.

Smith was murdered at the home of his wife, Nettie Hall Smith, in the eastern part of the city, about 10 o'clock last night. McPherson and his son called at the house but Mrs. Smith asked them to leave. McPherson struck her over the head with his pistol and the weapon discharged.

The noise awakened Smith and he rushed to the door to aid his wife in ejecting the intruders. Both turned on him and the physician, it is said, inflicted a mortal wound with a knife while the son also made fatal wound with his pistol. Smith living but a few moments.

Father and son fled in a buggy, going by the home of Miss Winstead, the pretty 19-year-old sweetheart of the son. She joined them in the buggy and the trio drove south of the city. Two miles from the city they ran into the buggy of Dr. Joseph Waddell, who was making a night call. A quarrel ensued and John McPherson knocked Waddell from his buggy.

Again they started on their route. Dr. Waddell got in his buggy and drove to the home of Deputy Sheriff William Walker. Both hurried after the trio and overtook them about 2 o'clock this morning. The officer ordered the men to throw up their hands and John McPherson answered by firing his pistol at Walker, the ball striking him in the shoulder and passing out through the spinal column, paralyzing him and inflicting a mortal wound.

Dr. McPherson himself dressed Walker's wound and then the trio hurried on toward the Sevier county line, after crossing which young McPherson left the buggy telling his father and sweetheart good-bye and going into the mountains.

The doctor and the girl returned to this city, reaching here at 5 o'clock in the afternoon.

In October, 1897, Dr. McPherson shot and killed Dr. Thomas Pickings in this county as the result of jealousy over a patient Dr. Pickings had secured from him, the patient being a woman. At that time he dressed his victim's wounds before he died. He was given a seven-year sentence.

The father says his son was drinking and caused all the trouble.

### Automobile Tour.

Mr. C. M. Budd, manager of the West Kentucky Coal company, of this city, yesterday left Cincinnati, O., in company with his wife in his automobile, and expects to go to Detroit, Mich., and Chicago in the machine. The couple made a successful trip overland in the automobile to Louisville last week. They will make stops at the principal cities en route to Chicago.

### ENTIRE TIME

OF William Deal Devoted to Promot-  
ing Labor Carnival.

The Central Labor Union carnival committee has arranged with the secretary, William Deal, to have him devote his entire time to promoting and looking after the affairs of the fall carnival—which will be given the week beginning Labor Day. Mr. Deal will begin at once advertising the affair and will visit the unions of surrounding cities for the purpose of arranging for their attendance in a body. Indications promise that no carnival ever given in Paducah will compare in out-of-town attendance.

## BICYCLE

JUST AS POPULAR AS IT EVER  
WAS IN OLD DAYS.

Sales Now Are Larger Than at Any  
Previous Time—Luxury Be-  
comes Necessity.

Bicycles are not declining in popularity and use by any means since the automobile craze struck Paducah.

It is stated by bicycle dealers that more wheels are being sold in Paducah now than in years, even when the bicycle craze was in its zenith. At that time it was more a matter of pleasure, but now it is a business proposition, and the wheel is a convenience, a necessity.

"I have on the biggest stock of bicycles I have ever carried," a local dealer declared yesterday, "but, of course, they are cheaper wheels than we formerly carried. The demand is for cheaper wheels, and all grades have gone down accordingly. The best grade bicycles can now be purchased for less than half the price they formerly brought. I do not believe that the bicycle will ever go out of demand. It is now a necessity in some lines.

The wheels have not declined in popularity in other cities where they have good streets and country. It is only those places where the land is hilly where the sales have fallen off."

### Used His Power Magnificently.

It would be unfair to note the passage of this act and the victory for righteousness without giving credit to President Roosevelt for his masterly conduct of the campaign of the people. To his initiative, to his courage and tenacity of purpose, to his high patriotic devotion, to his implacable hatred of wrong, is due, more than to any other force, the adoption of this advanced legislation.

Nobly has he been seconded by some men in congress—by Democrats as well as Republicans—and to them no meager commendation is due. But no other one man could have done so much as he to surmount the formidable obstacles to success and to beat down powerful opponents who held briefs for the offending railroads.

He used his power magnificently and successfully, and the guess may be made that concerning his administration of his great office few things will be longer remembered, or will have more beneficent results, than the passage of the act to make the railroad corporation obedient to the requirements of the welfare of the people.—Philadelphia North American.

### Bourke Cochran's Views.

Bourke Cochran says in his opinion President Roosevelt is the only choice of the Republican party for president. He says Bryan is now the unanimous choice of the Democratic party for president, but that he would not be astonished to see a Democrat step from the New York governorship to the white house.

Winston Churchill, candidate for governor of New Hampshire, has announced his platform. It opposes lobbies and free passes to newspapers and aims especially at the Boston and Maine railroad.

## ECONOMY IN OIL BY CLEVER DEVICE

### Round House Foreman to In- struct I. C. Employees.

Starts on Tour of Shops of the Sys-  
tem Explaining Plan to Prevent  
Waste.

### WILL SAVE MANY THOUSANDS.

Joseph Walker, foreman of the local Illinois Central round house, will be sent to Burnside shops in Chicago, Mattoon, East St. Louis, Ill., and Water Valley, Miss., where the Illinois Central maintains shops, to instruct the round house crews relative to firing engines with crude oil. This move is made because of economy practiced in the Paducah and Memphis shops, and Mr. Walker is considered the best man for the assignment, having first worked out the plan.

The Illinois Central road, while it spends thousands upon thousands annually in improvements, is ever ready to seize upon a plan of economy, and it will be surprising news that this move is made because of economy practiced in the Paducah and Memphis shops, and Mr. Walker is considered the best man for the assignment, having first worked out the plan.

Crude oil costs the Illinois Central three cents a gallon. The saving of nine cents an engine means a total of \$2.25 a day to the 25 engines out of Paducah daily. This means \$15.75 a week and \$819 a year. This is the cost saved in Paducah by the device, and it will mean a big thing to the whole road.

Paducah mechanics first started to work out the plan and the first gallon drum was made in the pipe shop under Foreman Ed Wheeler. It required several months of hard thought to make the valve arrangement a success, but finally perfection was attained and recognition secured.

It is only another of the many devices thought out by Paducah mechanics, which have saved the road thousands of dollars. Mr. Walker will start out in a few days on his trip.
